TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, TypeScript, SQL

Frameworks & Tools: React, Node.js, Express.js, MongoDB, PostgreSQL, TensorFlow, Arduino, Vite, Axios

Developer Tools: Git, AWS, VS Code, Jest, WebSockets, Postman, Railway

Soft Skills: Team Collaboration, Leadership, Problem-Solving

PROJECTS

Team Task Manager ■ Live *React, Node.js, Express.js, MongoDB, JWT, bcryptjs*

2025

- Built a full-stack team collaboration app with role-based access control (Admin/Member) for project and task management.
- Implemented JWT authentication with bcrypt password hashing, protected routes, and automatic session expiration handling.
- Developed RESTful APIs with 15+ endpoints covering auth, projects, tasks, and user management with Express-validator.
- Created a React dashboard showing real-time task stats — total, pending, in-progress, completed, and overdue tasks.
- Deployed backend on Railway with MongoDB Atlas; frontend built with React 18 + Vite for fast production builds.

Sweet Shop Management System *TypeScript, Node.js, React, PostgreSQL, JWT, Jest*

Dec 2025 – Jan 2026

- Built a full-stack e-commerce system using Test-Driven Development (TDD) with comprehensive automated testing using Jest.
- Implemented JWT-based authentication and role-based access control for Admin and User roles with protected API endpoints.
- Developed RESTful APIs with Express.js and TypeScript for inventory management, user authentication, and purchase operations.
- Designed PostgreSQL database schema for users, sweets inventory, and transactions; built admin dashboard for CRUD and real-time stock management.

Online Code Editor *React, Monaco Editor, Node.js, WebSockets*

Feb 2024 – May 2024

- Built an online code editor with real-time collaboration using WebSockets, allowing multiple users to edit simultaneously.
- Integrated backend with Node.js for user authentication, project saving, and code execution with multi-language syntax highlighting.
